Notes & Disclosures:

Prices and services are contingent on the customer providing:
- Ready and unobstructed access to the worksite and tank with no encumbrances;
- Handling (storage, disposition, transportation, etc.) of any identified hazardous material other than water or Class 3 hazardous materials;
- Any required bonds, permits, submittals, or notifications unless otherwise provided herein;
- Water, electric, toilet, and washroom accommodations will be made available to CFA, at a reasonable distance from the Job site;
- Relocation of any item as required to establish a safe work zone;
- Client must provide a liaison for signature of daily activity and transportation documentation.
- Tanks specified for the Filter Flush process should have between ½ tank and ¾ of a tank of fuel and access point of at least 2 inches in diameter on the top, with unobstructed line of sight to the bottom of the tank(s).

The Quote contained above herein is provided in addendum to the agreed upon "Fuel Quality Management and Storage Tank Services Blanket Terms and Conditions" provided by Clean Fuels Associates and signed by the customer prior to the submission of this quote. All terms and conditions are applied to the services outlined herein unless otherwise agreed upon in writing between

Clean Fuels Associates and the customer listed above.

Acceptance: The above prices, specifications and conditions in quote # 2876 are satisfactory and are hereby accepted. I affirm that I am a authorized representative responsible for the maintaining of the equipment, locations and materials outlined for the work specified herein. Clean Fuels Associates, Inc is authorized to do the work as specified in this quote. Payment will be made as outlined herein.

Please sign below and return one copy of the Accepted Proposal, Terms and Conditions to fax number 410-757-9034 or scan and email to CDahlby@cleanfuelsassociates.com.
