Subject: Sonetics Wireless Headsets

Hello,

Brian Wise asked I provide some information about our wireless communication system to you, for an upcoming meeting.

Yes, we're used by Public Works and outdoor crews who need to coordinate work activities together.

I've listed some key Sonetics features to read over and a short video.

SONETICS' KEY FEATURES & FUNCTIONS:

- **Hands-free** communication with hearing protection
- Up to **1600' range**
- **24-Hour** Rechargeable batteries
- Integrate your two-way radios
- Mix in outside sound, minus the noise, for improved awareness – **Listen Through**
- **No wires**, antennas or belt packs resulting in lower repair costs – less things to get caught on something to break
- Self-leveling mic, adjusting for and not transmitting high noise
- **Rugged** and tested, built to withstand extreme environments
- Recognized leader in **technical support**, customer, training and responsiveness

See our latest video Here showing our headsets in use.

How our gear works: https://www.soneticscorp.com/products/team/

Thanks,

Ben Wager

Sonetics®

PORTABLE COMMUNICATION SYSTEMS FOR WIRELESS WORK TEAMS

Sonetics Wireless Headsets let you talk hands-free with your crew while protecting your hearing from dangerous noise. With our listen-through technology, you control how much outside sound to let in so you can maintain situational awareness.

GET THE JOB DONE WITH SONETICS

Sonetics Wireless Headsets enable natural conversation in the most challenging environments. We combined our industry-leading audio quality with our exclusive auto-leveling, noise-cancelling microphone so that you can understand the subtle differences in what you hear - even in the middle of a loud work zone.

HIGHER PRODUCTIVITY
Talk easily in real time, completely hands-free

BETTER PROTECTION
24dB NRR protects hearing, Stereo Listen-Through provides situational awareness

IMPROVED QUALITY
Make fewer mistakes and watch job performance rise

ENHANCED SAFETY
Alerts, instructions and updates are immediate, helping you avoid hazards and risks

"It filters out your outside noises, which allows you to concentrate on what you're doing... Whenever you speak, people clear down at the other end of the project can hear what you're saying."

-- Walt Logan, Dig This! Las Vegas
