DRINKING WATER PROBLEM CORRECTED

ESTE INFORME CONTIENE INFORMACION IMPORTANTE ACERCA DE SU AGUA POTABLE. HAGA QUE AL GUIEN LO TRADUZCA PARA USTED, O HABLE CON AL GUIEN QUE LO ENTIENDA.

As a customer of the Maidencreek Township Authority you were notified on November 9th of a scheduled shut down of the water main on Tamarack Blvd feeding the Ontelaunee Heights residential development and were advised to boil your water for potable consumption.

We are pleased to report the problem has been corrected and that it is no longer necessary to boil your water for potable consumption.

We apologize for any inconvenience and thank you for your patience. As a result of the scheduled shut down of the water main on November 10th, the system experienced a loss of water pressure. We tested the water distribution system in the affected area for the presence of bacteria on November 11th and 12th. The results of the samples came back clear allowing the boil water advisory to be lifted.

As always, you may contact the Maidencreek Township Authority P.O. Box 289, Blandon, PA 19510 at 610-926-4173 if you require additional information.

Please feel free to share this information with all other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the Maidencreek Township Authority.
