American Legion – Join Us in Service

The American Legion is more than a veteran's organization—it's a place where service, community, and patriotism come together. At American Legion Post 625, we proudly support veterans and their families, sponsor youth programs, honor first responders, and give back to our community through meaningful events and volunteer efforts.
Some highlights of what Post 625 has taken part in include:

- **A Thanksgiving Food Drive supporting Keystone Military Families and another Food Drive for the Fleetwood Community Pantry**
- **Celebrating the 100th birthday of one of our World War II Legionnaires and honoring the life and service of another World War II veteran through a Celebration of Life**
- **Sponsoring a local high school senior in the American Legion Oratorical Contest, promoting youth leadership and a deeper understanding of the U.S. Constitution**
- **Taking part in the POW/MIA Flag Raising at Fleetwood High School**
- **Awarding a Scholarship to a Fleetwood High School Senior as well as a Legion School Award to Fleetwood 8th grader.**

Eligible veterans are invited to join the American Legion, and family members can be involved as well. Sons and grandsons of eligible veterans may join the Sons of The American Legion, while spouses, daughters, and granddaughters may be eligible for the American Legion Auxiliary. We also offer social memberships for community members who want to support the Post and enjoy our activities and events.
Whether you're looking for camaraderie, community involvement, or a way to support veterans and youth programs, there's a place for you at the American Legion. You can also follow our American Legion Post 625 Facebook page (Fleetwood Legion) to see upcoming events and activities happening at the Post. Stop in at American Legion Post 625, 120 E. Arch St., to learn more.

NORTHERN BERKS REGIONAL POLICE DEPARTMENT

It's hard to believe we are already halfway through the year. The Northern Berks Regional Police Department would like to take a moment to thank our community for its continued support. Your partnership and engagement truly make a difference, and we are grateful for the strong relationship we share with the residents we serve.

As we move into the busier months ahead, we remind everyone to lock their vehicle doors and keep valuables out of view. These simple steps help prevent theft and keep our neighborhoods safe. We also encourage residents to look out for their neighbors and report any suspicious activity.

With more people out and about, please be mindful of your speed throughout the township and remember to come to a complete stop at all stop signs. Children will soon be out of school and enjoying outdoor activities, so extra attention on the roads is appreciated.

NBRPD officers will be visible in the community and available whenever needed. Foot patrols have begun, and if you see one of our officers in your neighborhood, feel free to stop and say hello. We always appreciate the opportunity to connect with the community. We will also be hosting a Community Connect event where residents can meet the officers who serve our area.

If you need to reach us, the department can be contacted at (610) 926-2999. We look forward to seeing you and working together for a safe and enjoyable summer. Please continue to stay alert, be safe, and look out for one another.

Electronic Recycling Center 1316 Hilltop Road, Leesport

Open Every Tuesday, Thursday, & Saturday from 8:00 AM – Noon

Take all electronics in the trunk of your car or bed of pickup truck (Max 10 Items per vehicle)

For more information, go to Berks County Solid Waste Authority website and view the electronics brochure

Projects & Permits

To start a building project, you can find permit forms on our website or at the Township Building. Once you fill out the application and plan the project, the Township will send your permit to LTL Consultants where they will review the permit. After it is complete, the permit will be returned to the Township, and we will contact you that your permit is ready.

The Township office can be a busy place and sometimes we forget to communicate to our residents the little things that they can do to make our community great. Here are the top five:

1. **Obey the speed limit and come to a complete stop at stop signs.**
2. **Keep grass and weeds cut.**
3. **Become involved in the community by volunteering, attending meetings or by keeping up to date by visiting our website frequently. We try to post helpful information.**
4. **Store garbage in a tightly covered can and do not place the can at the curb more than 24 hrs. before pickup.**
5. **Clean up after your pet.**

Recycling FAQ

Q: What harm could it do to put my single-use plastic bag in the bin that says no plastic bags, for example? Won't they have to just recycle it anyway?

A: Sending non-recyclable materials to your local recycling program contaminates the material stream. This is called “wish recycling” or “aspirational recycling.” Your single-use plastic bag, also known as “film” to the recycling industry, will NOT be recycled. Instead, a worker will likely remove your unrecyclable item at the sorting facility, slowing down the process and increasing the cost to run the recycling program. It may get caught and jam up or damage recycling equipment. Picture hair wrapped around a vacuum cleaner roller, but on machinery so big that a worker has to walk inside it to fix it. If your plastic bag isn't caught and removed, it can result in the entire load of recyclable materials being rejected by the buyer and landfilled instead. Buyers of recycled material streams have lowered the thresholds for allowable contamination in recent years, making each consumer's actions to properly sort and clean recyclable materials even more vital to the success of a recycling program. Also, don't put recycled materials in bags unless your municipality allows it. Remember: When in doubt, leave it out! Even one bad decision can spoil everyone's recycling efforts.

Este reporte contiene información importante sobre la fuente y la calidad de su agua potable. Por favor llame al 610-926-4173 si deseas que le mande por correo su reporte en papel a su casa

"At Maidencreek Township Authority, our goal is, and always has been, to provide a dependable supply of high-quality drinking water and sewer service at the lowest possible cost to the customer. To confirm the Authority continues to provide cost-effective water and sewer services to its customers, a water and sewer rate study was performed in 2025. The results of the study revealed that Maidencreek Township Authority had the second lowest combined water and sewer rates out of 10 local municipalities."
