Dear Diane:

This document will serve as Industrial Grounds Maintenance proposal to provide spring street sweeping to your borough. We would clean approximately 21 road miles for $3900.00.(same streets we did last year- $300.00 more, looks like every one will be using more anti skid again this yr)

We would need access to water and a centralized location to dump debris collected or have your dump truck follow or sweeper. We have you tentatively scheduled you for April 14th-17. Please contact us to lock this date if interested.

Thanks again,

Scott Seher
