Subject: Roundabout Resolution Comment

Mrs. Hollenbach,

The first mention of a roundabout in Maidencreek that I could find record of was in February 2012 at the board of supervisors meeting. I believe the elected supervisors have accurately and incessantly forwarded the concerns of the township residents to the necessary parties in the six years since then. Unfortunately those concerns, along with the constituents own efforts in contacting local legislators, have beared little in the way of a different solution for the township. As the construction of the roundabout at 662 and 222 forges on, it certainly seems that there is nothing that Maidencreek could do to prevent PennDOT from continuing with their plan for the 222 corridor. Therefore, I feel it would be unwise to spend money on a fruitless endeavor.

In my opinion, Maidencreek would be best served by accepting the inevitability of the roundabouts and focusing its energy on ensuring a successful future for our community after they are built.

Sincerely,

Cody Rhoads
147 W. Wesner Rd.
