NEW BUSINESS
Main St. Water Main Break – Mr. Donovan advised the Board there was a water main break at 531 Main Street. The repairs are being done and final repairs will be completed over the next few weeks. The break impacted around 60 customers initially. A new valve was installed to give the Authority more control of the line and around 50 feet of PVC pipe was re-installed.

Schaeffer Road Valve – The bridge replacement has brought a concern to the engineers and Mr. Donovan regarding the valving in the area surrounding the bridge. A water line is being impacted during the bridge replacement. Mr. Donovan and the engineers agreed it would be best to shut the line down to avoid losing the line and causing a violation. The way the valving is currently set up the downside to shutting the line down is fire flow in that area is lost.

Mr. Donovan is proposing the Board approve a new valve insertion to correct this problem.

A motion was made by James Nothwehr to approve the purchase and installation of a new valve near the bridge on Schaeffer Road. The motion was seconded by Karl Bolognese and hearing no questions on the motion, it passed unanimously.

UNFINISHED BUSINESS

She advised if the Authority is interested, to approach OTMA about the possibility of supplying them with water.
