To all,
The A-1 line striping contract was renewed for another year at current costs with an option to extend for two(2) additional one year terms. As with last year A-1 will be ready to start stripping around June 1, 2019 so municipalities ready to do routine striping are asked to proceed at that time. **Please note that it is the municipality's responsibility to contact A-1 when you are ready for line painting.** This will allow plenty of time for scheduling during the summer. At that time municipalities which are paving or reconstructing roads will have time in the fall to coordinate new stripping. Also, the owner of A-1 noted that he does a lot of restriping for paving contractors under municipal contract, however, because of prevailing wage the cost is almost twice as much. With proper notice he will insure timing as the construction gets completed. Contact information for A-1 is as follows:
