Subject: SR 222 (NO PARKING Restriction)

Good Morning Diane,

As a follow-up from our meeting last week and our conversation regarding the NO PARKING restriction in front of the proposed Redners Project and potentially within the limits (Business District) of the Department's SR 222 Project, I had the opportunity to discuss this internally. The Department is receptive to installing the necessary No Parking Signs as part of our project provided the Township completes the NO PARKING STUDY, enacts the required ordinance, and agrees to own and maintain the signs after installed. The Department would work with the Township on the limits of the restriction and placement of signing through the corridor based on the shoulder width that will be constructed. If the Township is agreeable we will get you the required Study Document that needs to be completed, if not, we can look at just addressing the Redner's Project at this time. Thanks.

Brian J. Boyer | Assistant District Traffic & Operations Manager
